sure that the working
of the Land Law Code
need be guided.
But it is of secondary
importance - Effective
arrangement be
made by the Circular
of the late Supdt
Chitaldrug in which
he directs that the
vacant sites should
be assessed with the
last rate of the house
tax. It may also
be stated that as
a matter of practice
such assessments
were laid in the
various parts of the
Province - The last
mentioned Chitaldrug
Govt's order is not
therefore a new enforcement:
~~not~~ the order only systematizes
the practice on a

are not infrequently
made for building
purposes even in
villages where there
is much building
space but regarding
which private rights
are always set up-
The method of building
when there is as instan
as ever it is intrinsic
that the persons who
with whatever
superfluous funds sh
be made whereby some
appropriation thereof.
Regarding the head
of revenue towards
this item ought to be
credited. I think it
ought to be treated as
supplementary to the
Mohalanga item
& must be credited
to a subordinate head
under that revenue.
I do not think it ought
to be credited to the District
Funds so long as there

remains as at present -
an item of the State Revenue.

The principles on which
it ought to be assessed
must be regulated by
considerations of simplicity
& definiteness - The system
must be such as should
be capable of being worked
in a uniform manner,
& while full freedom of
action should be given to
Distt & Jammabandi
Officers to prevent hardship
even in special cases
there should not be such
wide ranges for the exercise
of such discretion as to bring
about a diversity of practice
as at present. The most
reasonable & workable
suggestion comes from the
Dy Comr. (Mr Krishnaswami
Iyengar) of Hassan and the
rules to be framed maybe
on the lines of his recommendations.
These are

(1). Every house owner will

have his immediate backyard
and an additional hittal
for the storage of manure, that
area free-
The maximum
of each of such hittals will
be ordinarily two gunthas
but exceptions over this area
may be permitted in cases
where such conversion may
in the opinion of the
Panchayat Officer, be
called for-

(2) Hittals used for the
growing of coffee, whose
produce except for purely
home consumption may
be taxed

~~No sale proceeds~~

(3) The minimum tax on
will be four annas
and each gunta of
land or fraction thereof
over two gunthas will
be taxed with two annas,
The maximum not to
exceed two rupees-

Until then are all the
rules required for the
present.. If no
Local cess is levied
on Mohalanga none
ought to be levied on this

also.

Please draft orders & rules according -

Regarding the Local
ags I think the principle of
the taxation is that every
surplus of Imperial taxation
one anna out of, or in addition
which must be devoted to
local funds., none being
given away with out con-
-sultees & others being held
under the control of Govt.
It has been recently the policy
of Govt. wherever some items of
revenue as taxation, & others
as not belonging with - (See
Dewan's Speech. Rep. Meeting
Proceedings for Oct 1894 page 13).
Stamps & Regn are just cases
and have not been subjected
to this incidence. Another item
of Revenue is Land-Rev: Excise
Motor duties & Sawyer are regarded
as the legitimate taxation charged
on Imperial & local funds.
I can find no justification for
distinguishing between Sales &

rents. Men are under various modes of tenure the last and does not of the essence of the last only. Mohalanga I understand does not constitute tenure-hold. I do not see why ~~there~~ as long as it continues what advantage the student stated therein. For I have already known from the Trust and the incidental gene may continue In the result I invite that very number of the items of revenue however realised apart therefore to the local funds, I cannot think of any other form -able to regulate this matter.

of recent Land as an addition to village site is not required. In this one case the agreement would be a sharper item of Land Revenue, it would in the other case, affect privately owned Mahalya, the area affected being within the present village site. But it would be manifestly inconvenient to deal with the same item in two different ways according as an addition to the present village site is or is not necessary, the underlined suggest that the assessment in question be entered in the always credited under "Mahalya."

3. The Talati already under is called on, upon the decision of this point will depend the question whether a local cess of one anna or any, lesser, should or should not

At the same time, I consider that such sites ought not to be wholly exempted from the payment of an assessment. I have accordingly directed that a rate of 8 annas should be imposed on such sites when the area does not exceed 3 guntas or 363 Square yards, of one rupee when it exceeds 3 guntas but does not exceed 5 and of a rupee and a half when it exceeds 10 guntas and whatever may be its extent.

(20)

4. The abuse which the Government endeavours to, is a real one. In many cases, there is a large extent of land within the village site which if unoccupied would be readily taken up and built upon by people who are really in need of houses. To meet the demands of such people, the Government finds it necessary to permit the appropriation of other land for the extension of villages. I am therefore quite in favor of the imposition of an

an assessment upon sites which their occupants have allowed to remain unutilized for building purposes. For reasons already explained I have made a distinction between sites used for Kanas etc and sites intended for houses and their backyards. It appears to me that the rates I have fixed are extremely moderate and that while fulfilling the intentions of Government, they do not entail any hardship on the persons required to pay the same.

(31)

5. Lists of sites to be thus taxed are still under preparation in most of the villages in this District. The order in question has not yet been given effect to except in a few cases.

6. The tax cannot altogether be called a new one since I find that in some parts of this District, the practice of levying a small assessment on vacant building sites has long been in existence. The order under reference simply makes that taxation uniform

Sir,

With reference to the Proceedings of Government, No. 18353-60 dated 21st April 1895 calling for a report as to how the orders contained in Proceedings No. 1879 R. 339 dated 6th April 1894 has been carried out in this District, I have the honour to state that the orders in question contemplates the levy of an assessment upon all coco-nut land within the "grama" on which there are no houses with coco-nut trees attached to them. Coco-nut trees attached to houses are not therefore liable to be assessed.

vacant sites, sites us
for storing manure &
are taxed. The assessme

fixed is 8 annas for every 10 Cankanams or fraction thereof, if the site is not used for storing manure and if it is used for this purpose, double that rate is charged. In Municipalities, the assessment is double the above rates.

allowed to be sold, it is nothing
but fair that the occupants thereof
should either be called upon to
build upon them or to give them up
for disposal in favor of other
persons desirous of building
or to pay a reasonable apprec-
-iment therefor. I am accordingly
directed that a small apprecoment
of half a rupee be levied upon
each site up to a limit of 150 Sq.
Yards and of one rupee where that
limit is exceeded. The, rate pro-

3. The above observations apply
only to building sites proper.
Other sites within the Cantonment

necessarily cheaper than building

It is suggested to be commended that the order in question be made applicable as well to Municipal towns (except Bangalore and Mysore) as to villages. Emoluments may have to be somewhat enhanced in the case of Municipal towns. But the maximum should in no case exceed Rs: 25/-

Notice should be published in every village whether Asali or Dakhali both by beat of tom tom and by written proclamation, calling upon the people to prefer within a month, claims to vacant sites. If such claims are preferred within the appointed time, Amildars should investigate each claim and write his opinion in a Register opened for the purpose. This Register, with the records, should be sent to the Division Officer for approval. The Division Officer should pass his order in each case and return the Register, assessing the vacant sites accepted by him as private. This work should be completed before the 30th September 1894 and on the 5th October the fact should be reported to me by the Division Officer. In the meantime, the Division Officers should report their opinion as to how they propose to assess the sites. I want this

information, as soon as possible, as I wish to send them definite instructions regarding the mode of assessment before cases are reported by Amildars.

Sir, With reference to para 2 of Government Order No. 22329 dated 30th May 1895, R 3254 I beg to state that in my opinion the assessment levied on vacant building sites under Proceedings No. 16919-27 dated 6th April 1894 R 1699 being of the nature of ground rent, the realizations therefrom should be credited to the head "Land Revenue" under a sub head "Miscellaneous" assessment of vacant sites."

To

The Chief Secretary to the
Government of Mysore.

Sir,

With reference to the Government orders No. 15073-80 / R-2670 dated 2 April last regarding the taxing of building sites, I have the honor to state that instructions were given to the Amildars to prepare and submit to this office Village Statements showing details of the building sites in each village.

2. The Amildars of Taluks except Tirthahalli have not yet submitted the statements and have reported that rich grain crops of the villages have been reaped and are being threshed, while those

for the remaining villages are due from the Chiefs and that reminders have been issued to them for their early submission.

3 A list from the Tinkalli Taluk above has been received in the office from which it appears that 15 building sites are laying Malitary a at annas each, and that this sum has been credited under the head "Miscellaneous" while the remaining building sites considered in the list have to be accounted hereafter.

4 In the Hagur Jamabandy of the Sirsinga Taluk the Register of building sites was scrutinized by the Jamabandy officer and assessed at 8 annas, 1 Rupee and 2 Rupees for each plot of 20 square yards 100 square, and above 200 square yards respectively and the amount

has been credited under the head "Mohatarfa".

5. The Amildars of the Maidan Taluks of Chanmagiri and Shikarpur propose assessing the village sites at 8 annas each, while the Amildar of Sorab Taluk proposes the imposition of a uniform tax of 8 annas for a site and the Amildar of Sirsi alli suggests a rate of 4 annas for a site within 3 anKanams, 8 annas for sites exceeding 3 and within 5 anKanams, and 1 Rupee for sites above 5 anKanams.

6. The Deputy Amildar of Kumsi proposes the following rates:—

(a) In populated villages - 20 Rs per acre.
(b) Villages of middle class - 15 — do —
(c) Villages of the last class - 10 — do —
In Towns ——— 40 — do —

7 As regards the two points adverted to in the Government Order

(1) what descriptions of sites are included and

(2) what are the rates and mode of taxation,

I beg to state with regard to the 1st point, that as complete lists of building sites have not as yet been received from Talaks, it cannot be said what descriptions of sites have been included in the different Talaks.

8. As regards the 2nd point, there is no uniformity in the proposed rates and the mode of taxation, but I would propose the sites be valued in the same way as houses of different descriptions are in the Khaneshumari Register and the rates of annas 4, 8 and Rupees one and two be imposed as follows:-

For sites valued at Rs 25 or less — 4 annas
Do — do — 100 — 8 annas
Do — do — 200 — 1 Rupee
Above 200 — 2 Rupees

9 An abstract from the extracts received from the Surveyor is enclosed for information.

10. As regards the query contained in Government Proceedings No. 2239-36/3254 dated 31st May last requiring whether the assessment levied on building sites encroached by house and verandahs attached to them should be credited under "Land Revenue" or "Nistarapa", I am of opinion that it would be convenient to register these sites in the Village Kumadhanmari and Nistarapa Statement, Village Register Nos 1 and 3 and credit the revenue under Nistarapa

Municipal Tank. The Municipal tanks that exist in the backyards and other lands in the holdings of the ryots mixed in the Nanjanad lands are assessed. The fasli yard and manure pits of the ryots are included in these wet lands.

The rate of assessment levied is as follows:—

For every 100 square yards — 3 annas.
From 101 to 200 — do — 1 Rupee
Above 200 — do — 2 Rupees.

The amount thus collected being credited under the head "Sanitation".

Private Tank. The dyeing Municipal tanks that sufficient compounds should be allowed to each house according to its proportion.

That besides the premises is allowed for compound the rent may be assessed.

that bathing-sheds unconnected with the house may also be assessed. But if the bathing-sheds attached to the house is not sufficient for storing manure then the additional portion lying separately may be allowed free.

6. Many sites are left vacant in the Municipality and claims for these sites are put forth only when others apply for them.

Generally a plot possesses more than one site, therefore it is necessary to assess such additional sites. Ground rate may be fixed for the sites in the town than in the village. Building sites in town fetch more price than in the village. The rates of assessment proposed by the deputy Auditor are as given below:—

Protected villages ——— 2½ Rs. per acre.
Villages of the middle class. 5 Rs. do.
do — last class ——— 10 do —
In the town ——— 40 do

The lists of building sites receive from the Shekdars are still under scrutiny.

...rgaon Taluk. The Mamlatdar states that in the list for Chinnagini Town building sites, backyards attached to the houses, Temples and other religious institutions have been exempted from assessment as per Jamabandy officer's order - Other lands such as sites and farm yards fit for buildings at the rate of 8 annas per site and included in the accounts as settled at the time of Jamabandy - The lists of sites in villages are under scrutiny in the Taluk and these sites are not assessed for the current year. As certain houses have no backyards or frontyards the owners use their farm yard (Khana) as their

backyards &ca. and such sites are not to be assessed. (78)

The ryots do not remove manure from the pits in front of villages though ordered and these sites are fit for building purposes being close to the villages.

The Amildar is of opinion that if these sites be assessed the ryots will be obliged to remove manure and use the same for building purposes.

Shikarpur Taluk. The Amildar states that lists of building sites &ca have not as yet been received from the Shekdars though several reminders have been issued. Strict reminders have again been issued to them to submit the lists at once. It will be submitted on receipt of the same from them.

He further states that there are

beetles? and meant that the attacks to leaves and that these cannot be separated.

That there are numerous facts, hitherto in which vegetables are grown and prepared encumbered with leaves and that some certain may be used as such also.

That it is not objectionable to use such sites at a rate not more than 8 annas.

It appears that there is an objection if this rule be brought into force in places where Municipal Bye laws have not been introduced. Visitors and that hospitals are the only two Municipal Towns in the Salem and that a rate of 3 annas per site has been charged on such sites in these places.

Local Saint. The Committee states that the Municipal sites in the Town of Local Saint may

been accrued at the rate of 5 annas per site and the amount collected is credited under the head "Sadatapa

The list of building sites of some villages have not as yet been received from the Sheristadars and street reminders have again been issued to them -

--No assessment has yet been levied during the current year a list of such sites have not yet been prepared on the date determined -

Want of the right of want of sufficient space in the backyard of their houses to store firewood &c. Make use of some other place and not expending such portions the rent not charged will have to be accrued -

As the extent of vacant sites is very large in this part the sale

of assessment alluded to in the Madras Defects Commissioners letter will be rather high and it may also be very troublesome for the Ryots to pay such high rates for the sites which they are occupying free of rent - It appears reasonable to assess such sites at the lowest rate charged on watched lands (i.e 2 annas) and that if the ground portion is more than ½ yards in breadth the rate of assessment to be fixed may be one anna for every additional yard whatever may be the length.

The further order that the assessment which may be thus enhanced may be credited under the head "Miscellaneous".

Paragraph 4 - The question of what kind of building sites are still under fluctuation and that no

assessment has yet been levied on such sites in the Court.

Some of the building sites within the village of Kumaka are in the enjoyment of rents and they have been already assessed. Some building sites within the Municipality of Kallunkate have been assessed during the current year and the amount collected is credited under the head "Sanitary" Privy, backyards, Compounds & houses, manure pits and farm yards attached to houses may not be assessed.

That it is reasonable to assess building sites according to local circumstances and that such assessment may be half the amount levied on attached houses.

As the assessment levied on building sites &c. is lumped credited under the head "Sanitary"

the assessment to be levied hereafter
on such building sites may also
be credited under the same head.

Khalli Taluk. The Amildar has submitted a list of building sites. It appears that 15 building sites which are in the enjoyment of the ryots are assessed Rupees 7-8— and the same is credited under the head "Mohatarfa".

He further states that the villages in the Mulwad are not so thickly populated as in the Maidan Taluk. for the sake of cultivation, ryots have in the majority of cases built their houses in the Jirgat and Gomi lands and also occupied lands. The practice of building houses in village site set apart for such purpose is unusual in this Taluk. In some parts village sites are set apart for building purposes as will be seen from the village maps and

accounts. The extent of such sites recorded in the accounts is 202 acres and 28 guntas. Out of this area some sites are left vacant while in others houses have been built. Building sites which are in the actual enjoyment of ryots are entered in the list submitted. (84)

In scrutinizing the list received from the Shanbhogues, these building sites have not been included in the accounts of every year and the Shanbhogues say that the list has been prepared on reference to old accounts and personal experience. Some of the owners who appear to be the claimants, are reported to have been dead and some have deserted the village and settled in other Taluks. If such building sites are to be assessed, it should be thoroughly ascertained whether the ryots who

over the sites are willing to have the assessment as shall then have to represent anything in the matter. Building sites in Maitland do not fetch a higher price than those in the Maitland Suburbs. According to the local circumstances, the rate of assessment may be as follows:—

For sites within 5 furlongs of Maitland — £1 per acre — exceeding 5 furlongs & not 10 furlongs from Maitland — 15/ — Beyond

Deputy Commissioner's Office

Dated, Hagaan, 21st August 1895

From,

A. Krishnaswamiengar Esq.
Deputy Commissioner
Kaaraa District,

To,

The Revenue Secretary
to the Government of Mysore
Bangalore.

Sir,

Adverting to Government Proceedings No. 18353—60 / R. 2670 Dated 21st April 1895 communicating a letter from the Deputy Commissioner, Kadur, soliciting instructions on certain points with reference to Government Proceedings No. 16919—27 / R. 1697 Dated 6th April 1894, regarding the appropriation of building sites unoccupied by houses and backyards attached thereto, and calling for a detailed report as to how the

the above order was carried ou
in this District, I have the hono
to state that doubts and difficul
-ties having been felt in practi
-cally giving effect to the above order,
it was not possible to have adopted
any uniform method for the
whole of the District. The question,
was therefore dealt with accordi
to the discretion of the officers who
settled the Jamabundy of the
several Talukas and the nature of
the localities concerned.—

2 ——— My predecessor Mr.
Ramaiya had issued circular
orders to Amildars to the following
effect:-

I. That a list should be
prepared classifying the sides
under two heads (1) assessed
at Rupee 1 and (2) assessed
at 8 annas. and that the
considerations to be borne
in mind in such classifica.

-tion

classification should be (1) the importance of the village, (2) area of the site, (3) its position and (4) the general demand that exists first among the villagers.

II. That if the sites were under cultivation, the rates of assessment should be regulated in accordance with the rates prevailed in the village for dry, wet and garden lands. Provided that if the rates of assessment on these lands fell short of the rates prescribed for clause I, the latter should be adopted.

3 — But when Dr. Buchanan conducted the Journabundy of a portion of the Arsikere Taluk, he adopted a different system, the particulars of which are given in the subjoined table.-

Description of sites	Extent in square yards.	Rate of assessment	Extent in square yards.	Rate of assessment	Extent in square yards	Rate of assessment
1. Building sites	upto 50	2	above 50 & 200	1	2000 to 1 acre	2
2. Sites for storing manure, sites used for Kana	upto 100	3	above 100 & 200	1	2000 to 1 acre.	2

4. — The exempted backyards attached to houses and sites and buildings belonging to charitable institutions from taxation.

5. — Mr. Sreenivasachariar who conducted the Jamabandy of the Taxation Taluk adopted the following course.

Description of sites and buildings	Extent in square yards.	Rate	Extent in square yards.	Rate.	Remarks.
Building sites	upto 50	2	above 50 & 200	1	above 2 50 and more Rupee 1
2. Sites for storing manure and straw using for Kana and backyards attached to houses.	upto 100	3	above 100 to 500	1	above 500 & 2000 annas 8 for each 500: for each 1000 above 2000 annas 2

6. — The Jenmi is exempted from tax two gunthas of kiltad attached to houses and even more in cases of agricultural classes who paid Land Tax to Government. He also is exempted from taxation in kiltad and sites belonging to Charitable Institutions and to village Kulwadis. —

7 —— In Ranmangalam, settled the Jamabandy of Pattis and Arkalgud into two different ways. In the Pattis Taluk, the rate of assessment on building sites up to 50 square yards and was settled at 3 annas and above that area, at one Rupee. On kiltads in ordinary cases, Rupee 1, and 1½ Rupee If the extent was large, the Coffee rate was adopted, as most kiltads in the Pattis were and are used for Coffee cultivation. In the Arkalgud Taluk, the assessment fixed on kiltads and building sites was

(10)

was up to 50 square yards, 8 annas; above 50 to 1000 square yards, Rupee 1 and soon up to Rupees 3.

8 —— Mr. Chandrasekara Iyer settled the Jamabundy of portions of Arsikere and Channarayapatna Taluks and also the whole of Holé-Narsipur Taluk and of the Alur Sub-Taluk.

9 —— The system adopted in Channarayapatna and Arsikere Taluks is shown in the subjoined statement.

e of Village.	Sites assessed at Rupee 1.	Sites assessed at annas 12 & annas 8.
e of 500 or over population	Site for over 100 square yards . . .	Of, or over 50 square yards and below 100 square yards . . .
below 200 in tion . . .	Of, or over 200 square yards	Of, or over 100 square yards, and below 200 square yards.
		Below 50 square yards.
		Below 100 square yards.

10 —— He exempted from tax "kittals" of Kulwadies, Nirugunties and other

other inferior village servants and also stacking grounds, threshing floors and backyards attached to houses, where such have not been assigned to a village at the Survey.

11 —— In the Athiyur Sub Taluk, he regulated the assessment according to the following scale allowing 2 guntas of hithals free to occupants.

Extent of Hithal.	Rate applicable
100 square yards (ie. about 5 guntas) or below ——	
200 square yards or below (but above 100 square yards)	
1 acre or below	
1 acre + 1600 square yards (ie. about 1 1/3 acre) or below . .	
1 acre + 3200 — Do —— ie. about 1 2/3 acre) or below ——	
2 acres or below	
2 acres + 1600 square yards or below ——	
2 acres + 3200 — Do —— Do ——	
3 acres or below	
and so on.	

12 —— Dr. Chenderasekharayer, adopted

adopted the above scale because Alur being a malnad tract, all large kittahs in it are cultivated with Coffee. He states that the Raiyats made no objection for the above scale and readily agreed to the arrangement. He also states that he did not make any distinction between house sites, house kittahs, Coffee kittahs and other varieties of village site. Because the Raiyats might use the said sites to any purpose as they might think proper and profitable.

13 ——— In the Hole Narsipur Taluk he adopted the instructions, recently given by me, viz:-

(1) Kittahs attached to houses not exceeding 2 guntas were allowed free

(2) No man was allowed free more than 2 kittahs whether attached

attached to his houses or isolated. —

(3). — The assessment imposed upon taxable kittahs was from Rs 5 an acre with a minimum of annas 4, calculating 4th annas for every 2 guntas or part thereof. —

(4) — Kittahs on which no houses stood were taxed

(5) Kittahs not claimed by any person, threshing floors, cattle stands and lands used for such common purposes were re-acquired as Government property. —

4. — The Jamabandy of the Manjanabad Taluk was conducted by me on the following principles: —

(1). Kittahs attached to houses not exceeding 2 guntas

Gunlas were allowed free.

(2). All such kuttals exceeding 2 Gunlas and all taxable kuttals and building sites were assessed at the rates adopted by Mr. Burnaby. One peculiarity of Nuwaragalawa in this respect is that most kuttals are fit for coffee and the Raiyats owning them are only too glad to secure them title by paying the tax. Kuttals or vacant sites in the maidan are not taxable. —

15 —— When conducting the kuttal Jamabandy, the officers concerned secured the attendance of as many people as possible and ascertained from them whether they wanted pay the tax or not. In case in which any person declined

declined to pay the tax, the site or kittal was declared to be the property of Government.

16 —— In conclusion, I beg to state that at the time of Jamabundy several complaints were received against Shanbogues of not having entered in the list prepared by them, the names of persons to whom the sites and kittals properly belonged. Some of them were disposed of and the Amildars were directed to make full enquiries into all such cases and place the same, shortly for disposal during the ensuing Jamabundy.

17 —— I may add that certain Ryots of this District forwarded petitions to Government alleging that

(106)

that the tax levied was a Grievance and it should be abolished. But these petitions were returned with orders thereon that the petitioners should pay the tax and that otherwise the sites would be declared as Government pro-perty.

18—— As directed in Govern-ment Proceedings No. 22,329-36 / R. 3254 Dated 30th day 1895, I beg to state that the assessment levied on these hillals and sites may be credited to Land Revenue Miscellaneous, Sub head "other sums."

19—— In any orders which Government may be pleased to-ipse on this subject, it is of the utmost importance to the con-venience of the Raiyats that one or

or two bullocks, whether attached to their houses or not, should be allowed free according to requirements, for, there are many cases in which a Ranjat has no backyard to his house and owns a vacant site at a distance which serves for his backyard. —

ಶ್ರೀ ಅಸಾಧಾರಣ ಅಧಿಕಾರಿಯವರಿಗೆ ಅರ್ಜಿ

ಅರಮನೆ ಪಕ್ಕದಲ್ಲಿರುವ ಮನೆಯನ್ನು ಕೊಡಿಸಬೇಕೆಂದು ಪ್ರಾರ್ಥನೆ.

ಮಹಾರಾಜರವರ ಸೇವೆಯಲ್ಲಿ ಸಲ್ಲಿಸುವ ಅರ್ಜಿ.

ಸಂಪಾದಕರಿಗೆ ಪತ್ರ

ಮಾನ್ಯರೇ,

ಕಳೆದ ಕೆಲವು ವರ್ಷಗಳಿಂದ ಕರ್ನಾಟಕದ ಹಲವು ಭಾಗಗಳಲ್ಲಿ ಬೇಸಿಗೆಯಲ್ಲಿ ಕುಡಿಯುವ ನೀರಿಗೆ ತೀವ್ರ ತೊಂದರೆ ಉಂಟಾಗುತ್ತಿದೆ. ಈ ಸಮಸ್ಯೆಗೆ ಶಾಶ್ವತ ಪರಿಹಾರ ಕಂಡುಕೊಳ್ಳಲು ಸರ್ಕಾರ ಮತ್ತು ಸಾರ್ವಜನಿಕರು ಒಟ್ಟಾಗಿ ಪ್ರಯತ್ನಿಸಬೇಕಾಗಿದೆ.

ಈ ಸಮಸ್ಯೆಯ ಮುಖ್ಯ ಕಾರಣಗಳಲ್ಲಿ ಅರಣ್ಯನಾಶ, ಅಂತರ್ಜಲದ ಅತಿಯಾದ ಬಳಕೆ ಮತ್ತು ಕೆರೆಗಳ ನಿರ್ಲಕ್ಷ್ಯ ಪ್ರಮುಖವಾಗಿವೆ. ಹಿಂದೆ ಹಳ್ಳಿಗಳಲ್ಲಿ ಇದ್ದ ಕೆರೆಗಳು ಮಳೆನೀರನ್ನು ಸಂಗ್ರಹಿಸಿ ಅಂತರ್ಜಲ ಮಟ್ಟವನ್ನು ಕಾಪಾಡುತ್ತಿದ್ದವು. ಆದರೆ ಇಂದು ಅನೇಕ ಕೆರೆಗಳು ಒತ್ತುವರಿಯಾಗಿ ಅಥವಾ ಹೂಳು ತುಂಬಿ ನಿರುಪಯುಕ್ತವಾಗಿವೆ.

ಈ ಸಮಸ್ಯೆಯನ್ನು ಎದುರಿಸಲು ಕೆಲವು ಸರಳ ಕ್ರಮಗಳನ್ನು ಕೈಗೊಳ್ಳಬಹುದು. ಮಳೆನೀರು ಕೊಯ್ಲು ಪದ್ಧತಿಯನ್ನು ಪ್ರತಿ ಮನೆಯಲ್ಲಿಯೂ ಅಳವಡಿಸಿಕೊಳ್ಳಬೇಕು. ಕೆರೆಗಳ ಪುನರುಜ್ಜೀವನಕ್ಕೆ ಗ್ರಾಮ ಪಂಚಾಯಿತಿಗಳು ಮುಂದಾಗಬೇಕು. ಕೃಷಿಯಲ್ಲಿ ಹನಿ ನೀರಾವರಿ ಪದ್ಧತಿಯನ್ನು ಹೆಚ್ಚು ಬಳಸಬೇಕು. ಇವುಗಳಿಂದ ನೀರಿನ ಬಳಕೆಯಲ್ಲಿ ಗಣನೀಯ ಉಳಿತಾಯ ಸಾಧ್ಯವಿದೆ.

ಶಾಲಾ ಮಕ್ಕಳಲ್ಲಿ ಜಲ ಸಂರಕ್ಷಣೆಯ ಬಗ್ಗೆ ಜಾಗೃತಿ ಮೂಡಿಸಲು ಪ್ರಬಂಧ ಸ್ಪರ್ಧೆ, ಚಿತ್ರಕಲಾ ಸ್ಪರ್ಧೆ ಮತ್ತು ಜಾಥಾಗಳನ್ನು ಆಯೋಜಿಸಬಹುದು. ಮಕ್ಕಳು ಮನೆಗೆ ಹಿಂತಿರುಗಿ ತಮ್ಮ ಪೋಷಕರಿಗೆ ನೀರನ್ನು ಪೋಲು ಮಾಡದಂತೆ ಹೇಳಿದರೆ ಅದರ ಪರಿಣಾಮ ದೊಡ್ಡದಾಗಿರುತ್ತದೆ.

ಸರ್ಕಾರವು ಈ ವರ್ಷದ ಬಜೆಟ್‌ನಲ್ಲಿ ಕೆರೆ ಅಭಿವೃದ್ಧಿಗೆ ಹೆಚ್ಚಿನ ಅನುದಾನ ಮೀಸಲಿಡಬೇಕು. ಅಧಿಕಾರಿಗಳು ಮತ್ತು ಜನಪ್ರತಿನಿಧಿಗಳು ಒಟ್ಟಾಗಿ ಕೆಲಸ ಮಾಡಿದರೆ ಮಾತ್ರ ಈ ಸಮಸ್ಯೆಗೆ ಪರಿಹಾರ ಸಾಧ್ಯ. ಇಲ್ಲದಿದ್ದರೆ ಮುಂದಿನ ಪೀಳಿಗೆಗೆ ನಾವು ಬರಡು ಭೂಮಿಯನ್ನು ಬಿಟ್ಟು ಹೋಗಬೇಕಾಗುತ್ತದೆ.

ABSTRACT.

State that the sites Mr. are used by them as threshing floors Hittalu &c have been exorbitantly assessed this year by the Govt. Commr. at Rs 129-12-9 Mr. as up to Rs 100 or 12 per acre on an average that this rate exceeds the rate of assessment fixed by the Rev: Secretary for wet Sarkar lands Mr. comes up to Rs 6 per acre; that they are unable to pay the high rates for Hittalu (i.e. annas 8 per 100 yards 1st class and 4 annas per 100 yards 2nd class) as it is unproductive; that the rate of assessment in the Hassan Dt. bears no comparison to what is fixed here for instance in the Belur Taluk (which is some 30 or 40 miles from Hubli) the threshing floor is left free to the ryot and for Hittalu the only rate of Kandayam has been fixed while in their village all other vacant sites are divided into 2 & assessed at annas 8 & 12 respectively

125

pray that the threshing floor may be left unassessed; that the Hitthalu may be assessed at Re 1 or 1½ Rs per acre; that acre rates may be fixed instead of yard rates as the same course is pursued in assessing wet & dry lands &c; that a comparison may be instituted between the rates fixed in the Kadur & Hassan districts in order to be convinced of the injustice done them in assessing such high rates; that on a temporary order, pending the disposal of their case, may be given to the Government not to issue notice to them for their Kandayam; and that an endorsement be given to them on the case has been finally settled.

From

To

The Secretary to Government
General and Revenue Depts

Sir

With reference to proceedings of the Board of Revenue dated 6th April 1876 regarding the assessment of lands in village sites and house dwelling sites, I have the honor to inform you that I issued the following orders :—

Katais will be classed under two heads :—(1) those to which dwelling houses in cities, and (2) those to which dwelling houses in villages belong.

The class (1) katais will be free.

For any portion of land above one guntah and not exceeding 5 guntahs in extent, one rupee will be levied.

For every extra 10 guntahs or part of 10 guntahs in excess of 5 guntahs and not exceeding 1 acre, one rupee will be levied.

Above 300 sq. yards for every
100 yards or part of it 2 annas
will be levied.

For each (2) detached build
a tax of 8 annas for the first
100 sq. yards or part of it will
be levied.

For every 100 sq. yards or
part of it 4 annas will be
levied upto 300 yards; above
and beyond that 2 annas will
be levied for every 100 sq. yards
or part of it.

Each, case will thus be dealt for
Inclined as well as the Magistrate.

2. In accordance with these orders the
Petitals have been circulated. Since
bringing this into force there have been
many complaints lately from villages
that the rates in this District are much
higher than those imposed in the
neighbouring District, and as I am
not aware of any uniform, rate having
been laid down by Government
on the subject, I am bringing the matter
to the notice of Government with a

need to obtain definite views in the matter.

3. I may here mention that I thought it necessary to impose a tax upon hitherto untaxed houses of the first class in many places in the Mainland and Semi-Mainland large hitherto untaxed houses or those are fitted with office and other offices, thereby creating Government of Ceylon, viz., and I consider 3 gentlemen i.e. 3-63 square yards would quite large enough for any ordinary house.

may be taxed in as much as they are virtually vacant sites, but those attached to houses should remain tax free.

2. Sites resided by the villagers in common for staeking hay, storing manure, picketting cattle and Kanas should not be taxed the same being Government property but if such sites are claimed and owned by individuals they should be taxed.

3. The rate of tax fixed to be collected in this district is specified below:-

	Rs.	as.	P.
(a) For a site of 250 Sq: yds	0	8	0
(b) For between 250 and 500 Sq: yds	1	0	0
(c) For every 500 Sq: yds or fractions thereof in excess of the above	1	0	0

4. The above scale, may be adopted in Villages, but in Municipal Towns the taxation may be regulated according to valuation as is now observed regarding the imposition of house tax.

5. I beg to state that the amount of tax collected from "building sites" may be credited to Land Revenue, which appears to be a proper head, except in Municipal Towns where it will have to go to the credit of the Municipality.

I have the honor to be,
